Desa Ciuyah Blok.IV Rt.02 Rw.08, Kecamatan Waled, Kabupaten Cirebon, Jawa Barat, 45187

Hello, I am someone who is passionate about the field of technology, particularly in programming. I possess responsible and creative personalities, and I am capable of working well both as part of a team and individually. I am currently focusing on programming and have gained experience in working on various web-based projects and creating APIs for Android applications. My interests lie in software development, and my career objective is to continuously enhance my programming skills and contribute to the creation of innovative technological solutions. I am eagerly seeking to join a dynamic and progressive team where I can continue learning and growing in an inspiring work environment.

## Experience

---

### Freelance - Cirebon, Indonesia

Jun 2021 - Dec 2022

#### Remote/Work From Home

- Offering comprehensive website development services, crafting visually appealing and functional websites tailored to clients' needs.
- Developing innovative Android applications, leveraging my skills in app development to deliver user-friendly and feature-rich mobile solutions.
- Providing ongoing website maintenance services, ensuring optimal performance, security, and seamless user experience.
- Creating robust APIs to support various requirements, such as for IoT (Internet of Things), Android applications, or other platforms.
- Deploying websites onto hosting platforms, ensuring smooth integration and accessibility for users

### Kampus Merdeka - Indonesia

Apr 2022 - Nov 2022

#### Program PPK Ormawa

- Conducting field surveys and FGD (Focus Group Discussions) in rural areas, gaining deep understanding of the needs and aspirations of the local community.
- Analyzing survey results meticulously, identifying patterns, trends, and relevant insights for further development.
- Designing an innovative system for the creation of a Village Submission Website, incorporating essential features and functionalities.
- Implementing the design and developing the website that combines visually appealing aesthetics with user-friendly interfaces.
- Acting as a trainer, providing guidance on the usage of a specially designed application for village devices, ensuring understanding and effective implementation.
- Organizing and coordinating a seminar event for the launch of the developed website, involving stakeholders and the local community to enhance awareness and adoption.

### Ciuyah Village Government - Cirebon, Indonesia

Jan 2021 - Mar 2021

#### Internship/Field Work Practice

- Developing a comprehensive village information system website from scratch, providing essential services and features for the community.
- Accurately and efficiently inputting data into the village information system website, ensuring the availability of up-to-date and reliable information.
- Conducting regular maintenance and updates on the village information system website, ensuring its smooth operation and optimal performance.
- Deploying the website onto a hosting platform, ensuring its accessibility to users and maximizing its online presence.
- Effectively troubleshooting and resolving website errors, demonstrating my problem-solving abilities and attention to detail.
- Implementing search engine optimization (SEO) strategies to enhance the website's visibility and ranking on popular search engines.
- Successfully improving the website's SEO performance, resulting in increased traffic and improved visibility on Google.

## Education

---

### Universitas Kuningan - Jl. Pramuka No.67, Purwawinangun, Kec. Kuningan, Kabupaten Kuningan, Jawa Barat 45512

Sep 2021 -

#### Bachelor Degree in Informatics Engineering, 3.62/4.00

- Achieved a GPA of 3.62, showcasing my commitment to academic excellence.
- Actively participated in the Kampus Merdeka program, seizing opportunities to develop beyond the formal curriculum and actively explore personal interests.
- Engaged in internal campus organizations, gaining valuable experience in leadership, teamwork, and project management.
- Took part in programming competitions, testing my skills in solving technical and creative challenges while enhancing my understanding of the latest industry practices.
- Attended various programming-related events, such as seminars, workshops, and conferences, to stay connected with the latest trends and developments in the field.

- Undertook external projects, demonstrating others' trust in my abilities and work quality, as well as my ability to adapt to diverse demands and requirements.
